ROGERCO, Inc.

NASA SEWP VI
Solutions for Enterprise-Wide Procurement
Contract Holder

SEWP OVERVIEW

NASA SEWP VI – The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup", provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support - more than 50,000 orders a year.

FAIR OPPORTUNTIY

FAR 16.505(b) (1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding $10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer (CO) and that the CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP Quote Request Tool (QRT) will automatically include the Contract

ABOUT ROGERCO (RCI)

ROGERCO (RCI) is a privately held Small Business delivering cybersecurity operations, technology services, critical infrastructure protection, information security, and communications services company founded in 1997. RCI combines cleared personnel, mature business systems, and demonstrated prime-contract performance to support complex mission requirements nationwide. RCI has a Top Secret Facility Clearance and is CMMI Level 3 Appraised, ISO 9001 and ISO 27001 certified.

ROGERCO capabilities that can bring your mission to fruition: Threat & vulnerability analysis, information resilience, systems administration, graphic design & visual information products, multimedia support, audiovisual support, digital communications, technical writing, strategic communications, data science & analytics, software solutions & engineering, cloud migration & management, web &technical support, systems integration, and more.

WHAT'S IN SCOPE FOR SEWP VI?

SEWP is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC / AV) solutions and services. Technology is ever-evolving and for that reason SEWP's processes enable our Contract Holders to add new commercial technology and IT services to their contract daily, as requested by our customers. The focus of SEWP is on the full suite of technology offerings that simplify Governmental access and Industry offerings across the entire ITC/AV solutions and services landscape. SEWP is composed of three (3) scope categories detailed below. If you would like SEWP to determine if your requirement is within scope of the SEWP VI contract, please send an overview and/or bill of materials (BOM) to help@sewp.nasa.gov and we will quickly review and provide feedback.

The SEWP Contracts were awarded by scope category, the three categories are:

- Category A - ITC/AV Solutions
- Category B - Enterprise-Wide ITC/AV Service Solutions
- Category C - Mission-Based ITC/AV Service Solutions

ROGERCO has been awarded a **Category C** contract: 80TECH26D1058.

ORDERING PROCESS

The internal ordering process of each Agency varies. The process and accompanying forms for Purchase Requests (PR) and Delivery Orders (DO) that are issued against a SEWP contract is defined by the issuing Agency, not the NASA SEWP Program Management Office (PMO). The typical process is for an end-user to determine a requirement and generate a Purchase Request (PR).

The PR along with any necessary funding information is sent to that Agency's procurement office which results in the issuance of a DO. Any valid Federal Agency DO form, and the associated Delivery Order number may be used. The NASA SEWP Program Management Office (PMO) does not issue DOs - these must be issued through the issuing Agency's procurement office. The SEWP Program Management Office (PMO) reviews, processes and tracks issued DOs and forwards them to the Contract Holder(s).

Some Agencies have special requirements for issuing IT Delivery Orders. It is the Issuing Agency's Contracting Officers' (COs/KOs) responsibility to be aware of any Agency-specific policies regarding issuing orders via an existing contract vehicle and Government-Wide Acquisition Contracts. There are no requirements under the SEWP Contracts for issuing Agencies to use other intermediary procurement offices, except as directed through their own internal policies.

If modifications are made to any order, these modifications must also route through the SEWP Program Management Office (PMO).

HOW TO OBTAIN A QUOTE

1. For a competitive requirement, agencies may use the NASA SEWP Quote Request Tool (QRT). Add ROGERCO, Inc. as a suggested source to route your request to us.

2. Customers may also reach out directly to our SEWP VI Program Manager (antonia.brogna@rogerinc.com) or Deputy Program Manager (daniel.ahmed@rogerinc.com) to discuss your requirements or obtain a quote. When requesting a quote directly from RCI, please include:

- Agency name
- Point of contact information
- Statement of Work (SOW), Performance Work Statement (PWS), or a summary of requirements
- Required delivery date
- Quote due date and contract vehicle

3. RCI responds to in-scope inquiries with a quote citing contract 80TECH26D1058.

4. Your agency's procurement office issued the Delivery Order (DO) against the contract. The SEWP Program Management office processes the order and forwards it to RCI.

INSTALLATION, WARRANTY, AND POST-DELIVERY SUPPORT

The RCI SEWP VI contract is a Category C contract for mission-based ITC/AV services. Installation, configuration, integration, transition work, and warranty information is specified in the Delivery Order and related quote. Please contact our program team for these or other post-delivery concerns, including software support.

Hours of Operation:
Monday - Friday
8:00 AM - 5:00 PM Eastern Time

ORDER TROUBLESHOOTING

If you experience any issues with an existing order, please reach out to our program management team first so we can correct it.

If the issue is not resolved to your satisfaction, contact the NASA SEWP Program Management Office for additional assistance: help@sewp.nasa.gov or 301-286-1478.
